**Rostov State Medical University is also known as Rostov
State Medical Institute, RostSMU, RostGMU, Rostov State
Government Medical University.**

Dear friends,

You are welcome to the Rostov State Medical University. Today Rostov State Medical University is the leading Higher Educational Institution of the Rostov region on training medical specialists. It is also the largest educational, scientific and medical center of Southern Russia and is one of the oldest universities in our country. We are proud to offer our medical, dental, pharmaceutical and nursing education programs. I hope that the Internet resources of Rostov State Medical University will help you get all the necessary information about our University. At our website you can find everything about the University structure, its faculties and departments, scientific and research projects, and other kinds of reference information. On the website, special attention is paid to the applicants who can learn about the specialties, admission rules, training and accommodation conditions of Rostov State Medical University.

University success is based on a blend of glorious traditions and actual innovative approaches multiplied by a great potential of human resources. We are proud to be a unique educational, scientific and medical complex that graduates, certifies and provides lifelong professional education for physicians and other healthcare workers; that contributes significantly to the domestic and global medicine. The University is closely linked to the fundamental and applied research, highly efficient medical treatment, and propaganda of medical and pharmaceutical achievements.

I also hope that the website will significantly broaden the possibilities for patients of our Clinic, becoming a convenient and useful navigator for them.

Professor S.V. Shlyk

Doctor of Medical Science

"The Rector of The Rostov State
Medical University"

International cooperation is an important aspect of Rostov State Medical University activity. Its goal is an integration into the international scientific and educational sphere, ensuring the quality of education and its compliance with international standards. International cooperation is carried out by the following structural units of the RSMU: Dean's office of Preparatory Faculty, Dean's office of Faculty of Training Foreign Students and Postgraduates, International Cooperation Department. The realization of international educational projects includes the collaboration with the major foreign universities, scientific and medical institutions and pharmaceutical companies in order to develop the specific research subjects, provide clinical tests of drugs and participate in international forums held in Russia and abroad. Rostov State Medical University provides reception of foreign delegations and conducts students exchange for practical training. University staff is involved in the work of international companies and organizations and does its best to get the grants of international funds and organizations. An essential component of the international cooperation of the RSMU is to interest foreign students in training, based on general and special programs, to organize students exchanges and practical training for post-graduates and professors. Our University is rich with knowledge and experience that is generously transferred to our students, to those whose mission will be to face the challenges of the 21st century in the field of medicine and people aiding, to implement new methods and technologies in healthcare.

Rostov State Medical University (Ростовский государственный медицинский университет) is a public higher education institution in Russia. Degrees are recognized globally. **"Welcome to fulfill your dream
to become a successful doctor,
one and only best medical
university of Russia - RostSMU"**

RostSMU is one of the oldest medical universities in Russia. Only University in Rostov-on-Don which is recognized by the Ministry of Health & ministry of education and science of the Russian federation.

Rostov State Medical University

Rostov state medical university:

It is one of the best medical universities in Russia. It is the main medical university in Rostov-on-Don city and provides doctors and nurses for the region. RostSMU has six faculties for foreign students which have a strong emphasis on health and biomedical sciences but our strengths are combining fundamental science with teaching practical skills. Rostov Medical University is justifiably an International University. Nearly seven hundred students from thirty countries all around the world are studying here and some of them the learning language is English. Moreover, we have a large number of students who came from neighbors and remote regions of the Russian federation. **We are proud that Rostov state medical university is attractive to young people from different parts of the world.** Therefore our priority is to be supportive and careful to international Students. Education at Rostov State Medical University is highly rated-we are in the top list of medical universities in the Russian Federation. Foreign Students consider RostSMU as a desirable place to study and acknowledge our high-grade teaching. Rostov State Medical University is the largest basic training and research center in southern Russia.

Over the 100 yrs of its existence, it has become a diversified complex with ten faculties, a medical college, a military training center, and its own clinic on University's main campus. The leading and advanced doctors of Russia have formed on the basis of the Rostov state medical university their major scientific schools, headed by the honored workers of science, employees of high school, honored doctors, honored workers of health and culture, as well as work renown scientists. Rostov state medical university is also known as Rostov state medical institute, **RSMU, RostSMU, RostGMU, РостГМУ.** The division of **Medicine in 1915** at the **Russian Warsaw University** was moved to Rostov-on-Don and converted to Don university. The best representative of medical schools of Warsaw, Moscow, st. Petersburg and Kazan were collected in its medical faculty and have founded their own Rostov medical school, which had become one of the best medical institutions in Russia. It was initially formed as a department and later transformed into a medical institute in 1930. Due to the diversity in the students that attended the University, an award of the order of friendship was awarded to the university in 1980. **RostSMU has been training foreign students (Doctors) since 1961** and it's highly appreciated abroad. Dean's office of foreign students on training foreign students and post was organized in 1964. Then later in 1994, the Rostov medical institute which is the largest basic training, research, and treatment center in southern Russia was renamed **Rostov state medical university.**

Faculty on Training Foreign Students and Postgraduates:

Degree of M.D Physician of the Rostov State Medical University which has been training specialists for foreign countries since 1961 is highly appreciated abroad. In 1964 the Dean's office of Faculty on Training Foreign Students and Postgraduates was organized. Foreign students are trained at the faculties of General Medicine, Pediatrics, Pharmacy, and Stomatology. Annually the University produces about 100 foreign specialists from about 100 countries of Asia, Africa, and Latin America. Students from different countries live as one big friendly family successfully obtaining one of the noblest and humane professions – medical one. Training foreign citizens on the postgraduate stage at the university has been carrying out since 1965. Approximately 100 specialists are trained in the internship, residency, and postgraduate (Ph.D.) course at the Rostov State Medical University. Annually 4-5 foreign postgraduates successfully defend their thesis with awarding the scientific title Ph.D. Young scientists-foreigners represent our University at international congresses and symposia on actual problems of medicine in Italy, France, Sweden, Germany, the USA, Turkey, and other countries.

Many graduates of the Rostov State Medical University after completing the residency and postgraduate course became prominent statesmen, heads of clinics, hospitals, departments of Ministries of Health in their Motherland.

Dean's office Building of International Students
